Tips Legend

- Compatible with PIPETMAN®
- ◆ Compatible with PIPETMAX®
- Compatible with PLATEMASTER® P20
- Compatible with PLATEMASTER® P220

PIPETMAN® DIAMOND Tips are designed to fit PIPETMAN® perfectly and guarantee maximum accuracy and precision in conjunction with your Gilson pipette.

PIPETMAN® EXPERT Tips and AmpliPur™ Expert Tips can be used with most leading pipette brands.

*Sterility Assurance Level SAL (ISO 11137): quantitative value to assure sterility. SAL 10⁻⁶: probability of 1 in 1.000.000 of finding a non-sterile unit.

**Autoclavable: tips are fully autoclavable except gel loading tips. Autoclaving does not destroy traces of DNA and RNases. Sterile not filtered PIPETMAN DIAMOND Tips and Sterilized not filtered PIPETMAN EXPERT tips are autoclavable.

TOWERPACK Tips are autoclavable, but the plastic wrap and the tray of the TOWERPACK are not. We recommend to place the racks in the tip boxes before autoclaving.

Empty reload boxes and racks are available for RELOAD, BLISTER REFILL, TOWERPACK, ECOPACK, EASYPACK packaging options.

WIDE RANGE OF TIP PACKAGING

PIPETMAN® DIAMOND TIPS

TIPACK™

The design is more compact, convenient, ergonomic and eco-friendly

Patented ROCKY RACK system and hinged 180° angled lid makes it extremely easy to fit tips on multichannel pipettes

Fully autoclavable

Available as sterilized and filter tips

[VIEW ALL](#)

TOWERPACK

A quick, easy, and affordable rack refill system

Uses 60% less space on your bench and 70% less plastic than regular rack boxes

The whole range of TOWERPACK fits the amazingly easy-to-use universal reload box

One-hand system operation

Fully autoclavable

Available sterilized

[VIEW ALL](#)

BLISTER REFILL

Individually wrapped racks of tips that are convenient, clean, and eco-friendly

Ready to use, just peel the lid and insert into the empty box

Uses 45% less plastic than regular reload box
